For best before end date and lot number: see base.

60 Capsules, 50g

As you will know, our capsule is a fixed size and there is no more room for any more ingredients. So, instead of trying to increase the amount of good ingredients in JP, we focus on increasing the goodness in the ingredients already present. For example, we aim for more nutrient dense varieties of the fruits and veg we use, and work with the farmers to get these grown specifically for us.
